

SOLIDAR CUSTOM COATINGS UNITED STATES

premium anti-reflection coating

Solidar is the future of Premium anti-reflection coatings, representing a generation of anti-reflection coating technology and development.

The benefits of the Solidar coating are numerous, and include extreme clarity so that you can see the world more clearly and the world can see you.

Just as high definition technology has improved what we see on television, Solidar is the high definition version of lens coatings. As well, Solidar reduces lens reflections enabling the wearer to maximize viewing without distracting glare. Available with the Solidar coating is ease of cleaning; the outside of the lens is protected with the most effective repellent surface available today, so that dirt, grime and debris are easily washed away.

our history

Solidar Express Coatings was founded by 3 individuals, each bringing 25+ years of coating knowledge, hands on experience, and know how under one roof.

Our extensive research and superior engineering makes our coatings more advanced on all levels of performance and durability, ultimately resulting in sharp vision and a comfortable feel for your customer.

With excellent turnaround time, competitive pricing, decades of experience and a beautiful coating which is second to none; your customers will be happy and completely satisfied with your overall services.

Call our office and find out today how Solidar Express Coatings can benefit your bottom line and customize your needs.

Solidar is available from your eyecare professional; simply ask for it by name when you order.
